Finance Staff
Center Director Executive Administrative Assistant

ADAMS AND ASSOCIATES, INC. STANDARD OPERATING PROCEDURE	MEALS FOR STAFF & VISITORS (PAID MEALS)
--	--

POLICY:

It is Center policy to encourage staff to eat at the Center's dining facility. Visitors are also welcome to the facility.

All Staff members and visitors are expected to reimburse the cost of meals unless this requirement is waived by the DOL Regional Office. Such cases would be community relations programs and special events involving staff and students.

Students and assigned Cafeteria Monitors (SOP Food Services Plan) will be furnished meals at no charge.

It will be the policy of the Center to sell individual meal tickets to employees for use in the students' cafeteria and to account for all proceeds generated. The cafeteria will charge the following rates with prior DOL Regional Office approval:

1. Breakfast: \$2.50
2. Brunch: \$2.50 (Weekends and Holidays)
3. Lunch: \$2.50
4. Dinner: \$2.50

Note: Terminated employees may receive reimbursement upon return of unused meal tickets.

PROCEDURE:

1. All Center staff and visitors who desire to eat in the Center cafeteria must present an authorized meal ticket, purchased at the Finance Office, to Food Services staff before they eat. Finance may encourage Staff to sign the back of the ticket at the time of purchase.
2. Staff must sign a log sheet (attachment) indicating ticket number, sign the back of the ticket to invalidate it, and turn it in at the serving line.
3. Meal tickets are pre-numbered for accountability and sold only at the Center Finance Office during normally scheduled business hours.
4. Complimentary meal tickets for visiting guests may be obtained from the Center Finance Office, if authorized in writing by the Center Director or Administration

STANDARD OPERATING PROCEDURE	

Director/Manager. Requesters should use discretion and submit the request well in advance of the visit. Complimentary meal tickets are to be used sparingly on rare occasions and special events and are to be color coded in order to differentiate them from staff purchased meal tickets. If approved, the Requester should pick them up from Finance for distribution. The Center Director Executive Administrative Assistant may also coordinate with Finance to handle complimentary meal tickets as most guests go through the Center Director's office.

5. Food Services staff or a designated cafeteria monitor will collect tickets from all persons desiring to eat in the cafeteria, who are identified as non-students. They will not accept cash, but in the absence of a ticket, will politely direct the individual to the Center Finance Office. Food Services personnel or the designated monitor will ensure that the meal ticket log is signed by each employee or visitor.
6. Tickets collected at the cafeteria will be given to the Food Services Manager/Supervisor, who will deliver them to the Finance office daily. The Finance Department will review the meal log of names with used meal tickets to ensure accountability. Finance will write the word "used" and the date on any the back of any unsigned meal tickets to reflect use.
7. The meal ticket system will not apply to the Community Relations Luncheon nor any other special functions approved by the Center Director.
8. The Finance Office will receipt the revenue from ticket sales and reconcile the money and tickets. Money received from the sale of meal tickets will be deposited at least weekly and prior to the monthly accounting close date, and will be credited as an offset to food costs. Complimentary meals may also be tracked to offset food costs, and may be applied to community relations, OA/CTS or other related expenses.
9. The Finance Department will track the number of meal tickets sold on a weekly basis using a sequential number system to compute and report revenues. Senior Accountant will review and approve weekly meal ticket sales completed by the Bookkeeper, ensuring the money on hand equals the value of the tickets sold since the last deposit. All meal tickets and cash received will be maintained in the Finance safe and must be accounted for.
10. The Food Services Manager/Supervisor and assigned Staff Monitors will be responsible to report any violations of this procedure to the Administration Director/Manager.
